

Actions  
for better  
water!

Swedish Agency  
for Marine and  
Water Management

# The first LIFE IP project in Sweden

Project start and stop: 2017 - 2024

Goal: to implement the  
EU Water Framework Directive

Swedish Agency  
for Marine and  
Water Management

# Five Water Authorities decides on environmental quality standards and RBMP's

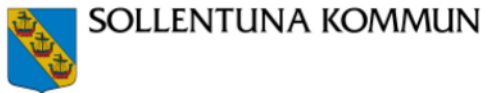

Västerås

Swedish Agency  
for Marine and  
Water Management

# For the benefit of our common waters

# New knowledge and improved methods

Improve water planning

Reduce eutrophication from agriculture, waste water and storm water

Reduce eutrophication from internal loading

Create free fish migration passages

Reduce environmental pollutants

Swedish Agency  
for Marine and  
Water Management

# New knowledge and better methods

# Examples of actions addressing synergies

- Assessing water ecosystem services in a changing climate
- Municipal water planning in an ecosystem perspective
- Multifunctional water parks
- Circular flow of nutrients (mussel farming and return of nutrient rich sediments to agriculture and forestry)
- Synergies in Complementary actions

# Keep in touch!
